# A Message from the Office of International Student & Scholar Services

As part of Northwestern's Buffett Institute for Global Affairs, the Office of International Student & Scholar Services (OISS) provides professional support and advising services to international students and scholars at Northwestern University regarding their immigration and academic status in the United States. The OISS is committed to providing quality advising services and supportive programming to students, scholars and their dependents. **Northwestern welcomed 1,684 new international students in Fall 2022 and sponsors over 8,500 visitors from over 140 countries.**

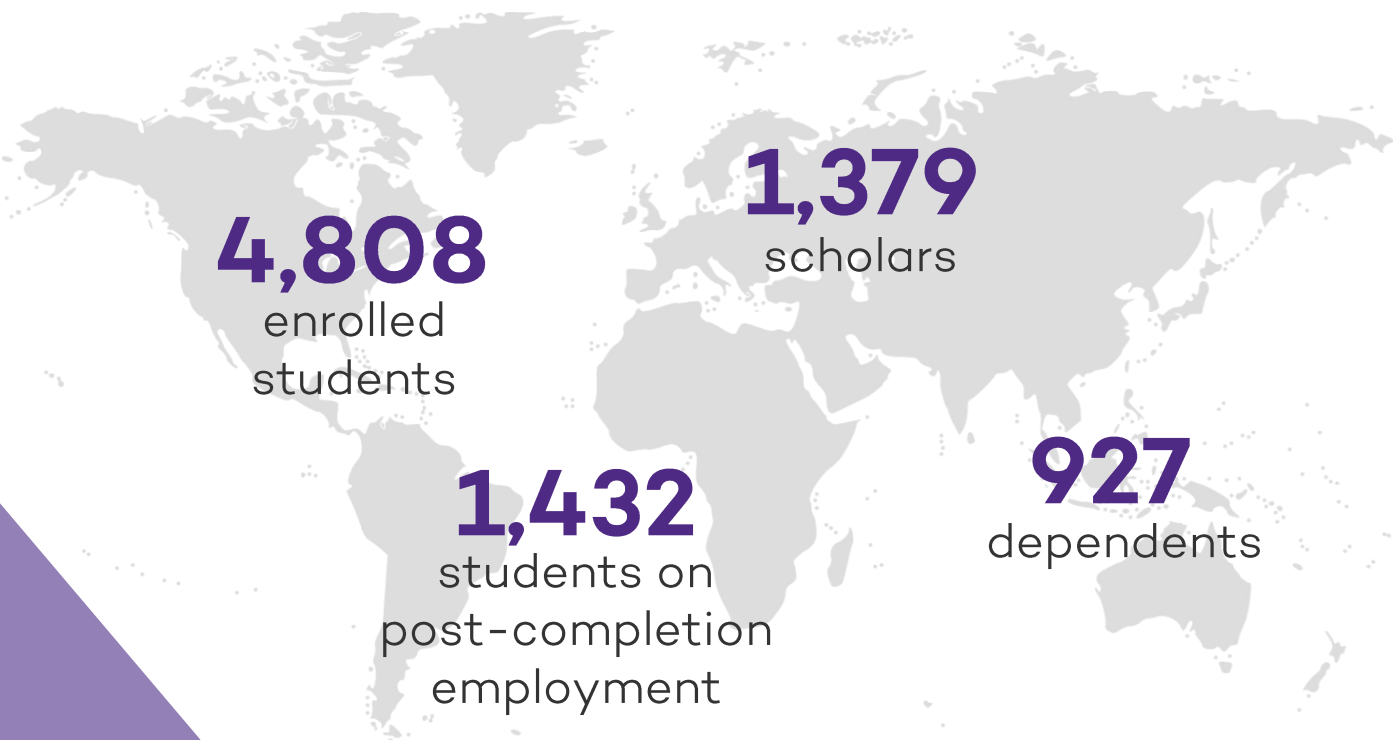

Nearly 1 million international students are studying at US colleges and universities. International students contribute to culturally diverse campuses, providing authentic opportunities for all students to learn from each other's perspectives and to become better prepared for careers in the global economy. Additionally, international students contributed \$34 billion to the US economy and supported over 335,000 jobs nationally during the 2021-2022 academic year. Closer to home, international students and their dependents contributed \$1.6 billion to the economy in Illinois. **Northwestern international students and their dependents contributed nearly \$240 million to the local economy and supported over 3,000 jobs\*.** This reinforces the notion that international students not only bring a diverse perspective to the academic discussion, but also contribute significantly to the national, state and local economies.

Our goal is to help the international students, scholars and Northwestern faculty and staff navigate the many complexities associated with student and employment-based visa classifications within the Northwestern community. We are committed to providing accurate information and the highest quality of service, taking into account institutional policies and ever-changing federal regulations.

\*According to a NAFSA (Association of International Educators) economic analysis for the 2021-22 academic year

# Northwestern's International Community

**4,808**  
enrolled  
students

**1,379**  
scholars

**1,432**  
students on  
post-completion  
employment

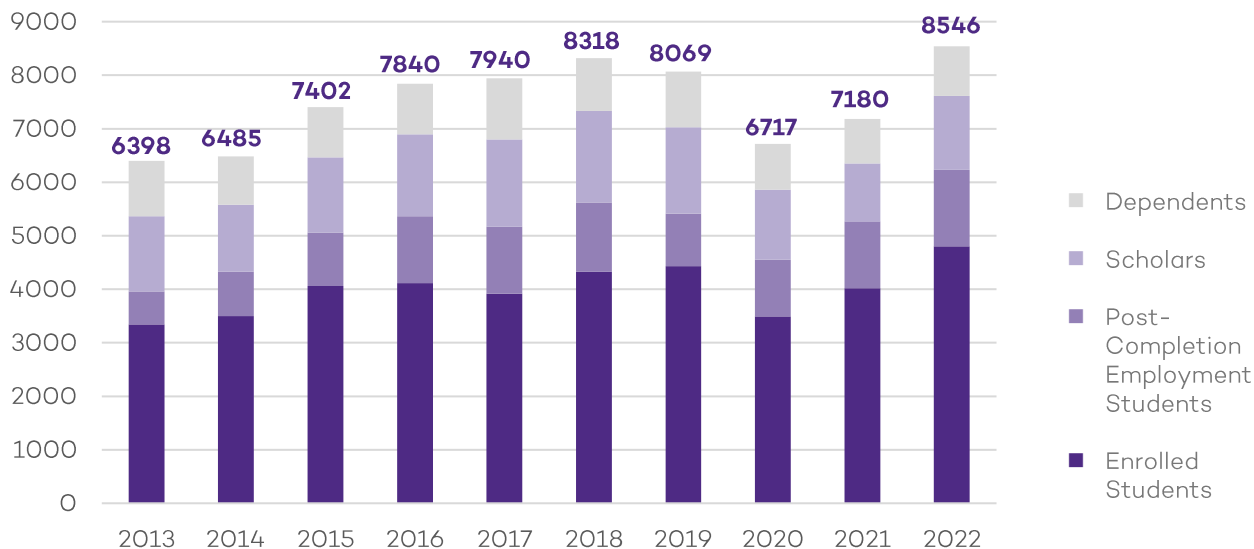

**927**  
dependents

The OISS maintains statistics only for the members of the Northwestern community who receive visa sponsorship through our office, including F-1 and J-1 students; J-1 scholars; H-1B, TN, O-1 and E-3 employees; B-1 visitors; and any of their dependents.

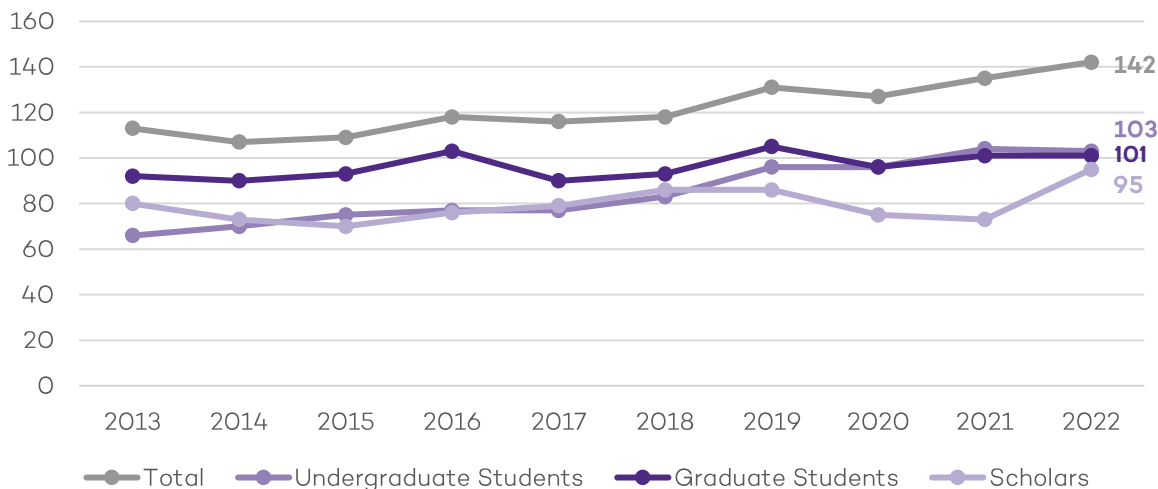

Many members of Northwestern's international community receive sponsorship through other entities, including students on F-2, J-2, L-1, L-2, H-1B or H-4 visas; J-1 students with third party sponsorship; undocumented students; employees with an Employment Authorization Document (EAD) including F-1 OPT students, J-2 dependents and asylees; and students or employees holding Legal Permanent Resident (LPR) status. These members of our community are not included in this report.

# Northwestern's International Community

Northwestern's international community - including students, scholars and their families - is currently made up of **8,546 individuals** from **142 countries**.

The diversity of our community has increased **26%** over the past decade. This can primarily be attributed to a **56% increase in the diversity of our undergraduate students**, who now represent **103 countries**. This year, Northwestern is hosting students and scholars from **Benin, Burkina Faso, Malawi, South Sudan** and **Zambia** for the first time.

# Enrolled Students

Enrolled students make up the largest part of Northwestern's international community.

**Representing 122 countries from around the world and enrolling across all of the university's schools and colleges**, enrolled international students enrich the academic experience by providing opportunities for all students to learn from each other's unique perspectives and to become better prepared for careers in the global economy. In addition, they make significant contributions to the local economy.

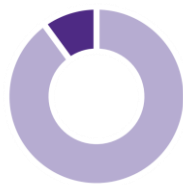

International students may enter the United States on either an **F-1 or J-1 non-immigrant student visa** to pursue studies in degree-seeking or short-term academic programs. Students are required to enroll in a full course of study during each academic term. They are eligible to work on campus, and after meeting certain academic requirements, are permitted to work off-campus with proper authorization.

---

International students are an integral part of Northwestern's student body, accounting for **25%** of all full-time students.

**25%**

# Post-Completion Employment Students

Upon completion of their degrees, F-1 international students are eligible for 12 months of employment authorization, known as post-completion Optional Practical Training (OPT). Students who have studied in fields of science, technology, engineering and math (STEM) are eligible for an additional 24-month STEM OPT extension. **There are 1,408 Northwestern alumni currently working on OPT in 36 states throughout the United States.**

J-1 international students are eligible for employment authorization, known as Academic Training, which can be used during and/or after their studies. The duration of their Academic Training can be up to 36 months, depending on their degree level and the duration of their studies. **There are 24 Northwestern alumni currently working on Academic Training in 5 states throughout the United States.**

In addition to continuing to provide immigration advisement to this population, OISS is responsible for regular employment reporting and verification during each student's period of post-completion employment. These services are provided for up to 36 months after graduation from Northwestern.

# Scholars

Northwestern University is proud to host hundreds of international scholars each year. Our scholars are a diverse group of employees and visitors who conduct a wide range of activities on campus. **They bring unique expertise from 95 countries to contribute to the university in 21 different disciplines across 31 administrative and academic units campus-wide.**

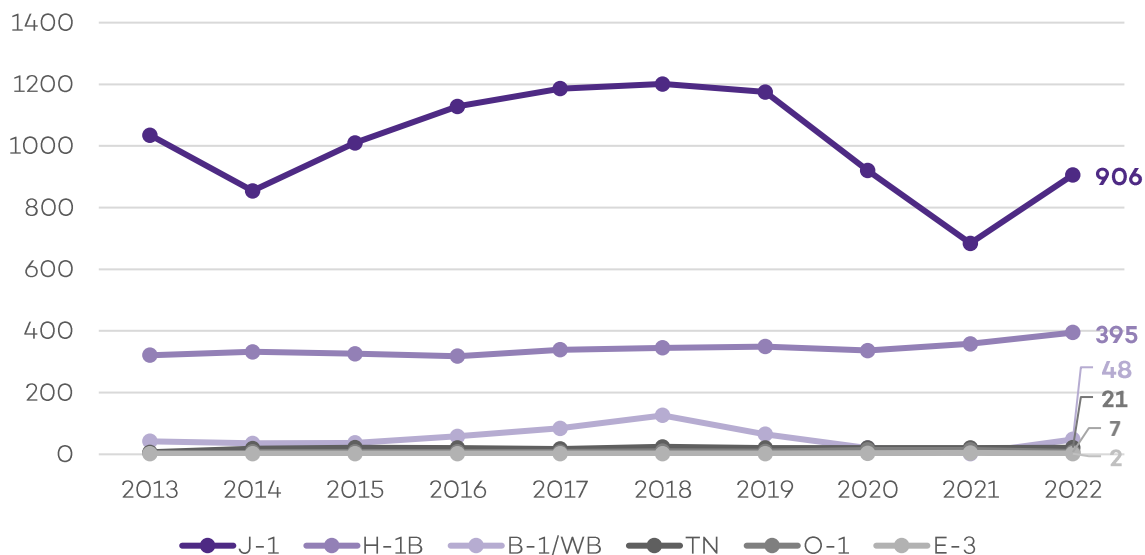

The majority (87%) of the scholar population is on campus to conduct research. These researchers are often appointed as visiting scholars, postdoctoral fellows, or research faculty/staff. Northwestern also hosts scholars to teach undergraduate and graduate students as lecturers, college fellows and teaching faculty. In addition, Northwestern has student interns who engage in internships across campus. Finally, a small group of our scholars are professional staff members who perform specialized services in areas such as Information Technology, Library Sciences and Psychology.

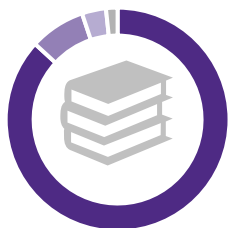

Scholars can come to campus in a variety of immigration statuses. Northwestern University sponsors the following:

- **J-1 Exchange Visitors** in the Research Scholar, Professor, Short-Term Scholar and Student Intern category. J-1 scholars come to campus for research, teaching and collaboration.
- **H-1B employees** are professionals hired to work in specialty skill areas.
- **E-3 employees** are Australian nationals hired to work in specialty skill areas.
- **TN scholars** are Canadian and Mexican nationals employed on campus.
- **O-1 scholars** are employees who have attained national or international acclaim for extraordinary achievements.
- **B-1/WB (visa waiver) visitors** are temporary visitors who come to Northwestern for one-time lectures, observation, or meetings.

**38% F-2 Visa**  
**5% H-4 Visa**  
**<1% TD Visa**

## Top 5 Countries

# Methodology

Statistics on Northwestern's international students and scholars were compiled using a combination of internal OISS records and the US Department of Homeland Security's Student & Exchange Visitor Information System (SEVIS). In order to achieve comprehensive, accurate and consistent measures of our community, members were identified and counted using the methodologies outlined below:

**Enrolled Students** are defined as international visitors enrolled in coursework who require immigration sponsorship through Northwestern. This includes both degree-seeking and non-degree-seeking students on F-1 and J-1 visas. These numbers include students who engaged in short-term programs in Summer 2022 as well as students who were enrolled in a program in the 2022-23 academic year.

**Post-Completion Employment Students** are defined as international visitors who have completed degree programs and hold employment authorization that requires immigration sponsorship from Northwestern. This includes J-1 students who completed their degree program prior to the 2022-23 academic year who were on active periods of Academic Training; and F-1 students who completed their degree program prior to the 2022-23 academic year, and whose Optional Practical Training (OPT) authorization status was either requested, pending, or approved during Fall 2022. Students on approved post-completion OPT who also had a requested or pending status for STEM OPT were counted as post-completion OPT students.

**Scholars** are defined as international visitors who are not enrolled in coursework and require immigration sponsorship through Northwestern. This includes faculty, staff, postdoctoral fellows, research associates, visiting scholars and other short-term visitors. These numbers include scholars who were active in a program from October 1, 2021 through September 30, 2022. If a scholar changed immigration status during the year, only the most recent status was counted.

**Dependents** are defined as the spouses and children (under the age of 21) of the enrolled students, post-completion employment students and scholars defined above.
